Part III DETAILED ACTION

1. Claims 2-5 and 9-10 are pending.

2. Applicant is AGAIN requested to supply a copy of Kim et al., Journal of Neurobiology of Aging, Volume 17, 1996, S155, as cited in Tanzi et al., Alzheimer's Dis. Rev. 1:90-98, 1996. Since this publication is Applicant's own work the Examiner believes no undue burden has been placed on Applicant to supply said article in a PTO-1449. Failure to supply said article will result in a 37 CFR 1.105 request.

3. Claims 2-5 and 9-10 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Since Applicant does not disclose nor claim the full amino acid sequence for the 20kDa presenilin-2 protein and molecular weight is the only standard defining the protein, a recitation of the method used to measure the molecular weight is necessary because different molecular weight measurements of the same protein give different molecular weights.
